

30th October 2025

Ref: Copley Flowmeters DFM 2 and DFM 3

Whilst it is accepted that customers who purchase from Copley Scientific should be supported wherever possible, it is recognized that the product range offered does periodically change and that equipment in the market cannot be supported indefinitely.

DFM 2

Due to equipment obsolescence, we are now unable to provide calibration and technical support for this model.

DFM 3

Whilst we can continue to check the calibration of these units in an 'As Found' status, we will be unable to undertake adjustments. At the end of 2026 we will fully remove support for this product.
